Staff Practically Same as Last Year

Children Who Will Attain the Age of Six, Before January Are Eligible to Attend School - The Outlook Bright.

Superintendent Baxter has announced the assignment of teachers for the year 1908-09 in the Canton public schools. The filling out of the teaching corps at the new Summit building has caused the making of no additions to the staff, although some new teachers may have to be appointed later. Aside from a few trivial changes, the staff will be practically the same as that of last year. It is probable, however, that a few slight alterations will have to be made in the primary grades after the opening

of the school year. Children who live in the Summit school district will report at the Woodland and North street buildings as heretofore, until otherwise assign-

PLEASED THAT TAFT IS TO GO WEST

On Speaking Tour as it Shows

Campaign is Far From Being a One-sided Affair-The Peerless Will Change Speaking Tour to be in Thick of Fight.

Lincoln, Neb., Sept. 6.-The practical announcement that Judge Taft would abandon the quietude of his home and take to the hustings will cause a change in the plans already announced by Mr. Bryan and the Democratic national committee. Instead of the Democratic candidate quietly resting in his Lincoln home while the Republican candidate is out tearing down the fences he has been erecting there is every reason to believe that both men will be fighting it out in the same section, regarded by both as the real battle ground, the middle west, during most of October. That is one of the topics that will be discussed at the Tuesday conference in Chicago.

Mr. Bryan's announced plans call for his return to Lincoln by way of South Dakota on the 29th of September and he intended to be home until finish was to be made in whatever deemed the best results could be obtained or where his presence was necessary. After the statement by Chairman Hitchcock that Taft would make a stumping tour was made publie, Bryan held a confab over the long distance telephone with Chicago headquarters, and it is likely that an additional itinerary or a changed one will be made ready for his approval when he holds the conference with campaign managers Tuesday.

Mr. Bryan, and Vice Chairman Hall had the matter up and the advice of his Nebraskan friends was to get into the fray and stay in to the end. One result of the change of plans will very likely be an extension of the tour into New England states other than Rhode Island and the devotion of more time to New York and other eastern states where the Democratic managers tell him he has more than a fighting chance.

This new arrangement would proabout to start a campaign which is and land him in Ohio along about the to be state wide, to have all of the time that is suggested for starting outside vestibule doors of churches Taft out, and would give him several open outward. While a number of weeks to thoroughly cover the disputthe churches in this city already con- ed states of Ohio, Indiana, Illinois Mr. Bryan was visibly pleased over

against the law in this state and paign is far from being the one-sided wherever they are found they will affair they have been stating it to be in Interviews. Mr. Bryan has told party leaders that in his opinion the statement from

Middle Bass Island, practically announcing that Taft would take the stump was about the best confirmation that could be asked for of the reports received by the Democrats that the Republicans were steadily losing ground, and that the fact that Taft was to turn from his original plan of 'a dignified campaign," and make a lively hustle for the presidency on the stump indicated the desperate character of affairs with the Repub-Heans. "The decision of Chairman Hitch-

cock," said Vice Chairman Hall of the Democratic national committee, "simply proves that he has been getting the same kind of reports that we have been receiving. While we have naturally discounted some of those made to us, all of which have been uniformly favorable to Bryan, we have known that much of the information was unmistakably true. We have reason to believe that the Republicans were getting some of this information and we have been looking for signs that they were worried. This is one of them. It means that apathy will be at an end for the remainder of the campaign.
